L.Raphael Boards Yacht to Debut Green Caviar

The experts at Swiss spa and skincare brand L.Raphael are once again setting up a chic spot aboard a yacht to show off its Green Caviar line and deliver exclusive treatments to VIP guests. For 13 years, L.Raphael has stuck to a tradition of launching products and treatments during the Cannes Film Festival. Founder Ronit Raphael will greet guests and be joined by Paolo Giacomoni, head of research and development, to present the newest achievements in skin longevity. "The ultimate red carpet experience we present now is in line with L.Raphael's vision currently focused on extending the immediate and long-lasting effectiveness of the top professional spa clinic experience via at-home skin care," Raphael said. The line of Green Caviar follows last year's showing of Golden Caviar set and previous treatments have included oxygen-enhanced technologies.
